

## DEPARTMENT OF INFORMATION AND COMMUNICATION TECHNOLOGY

PROJECT 1 | SESSION: 2 2024/2025

COURSE CODE: DFT40163	COURSE NAME: WEB DESIGN TECHNOLOGY					
<b>CLO 1:</b> Construct the HTML, CSS, JavaScript and jQuery in developing an interactive web page that can be published on web browser (P4, PLO 3)						
<b>TOPIC</b> : 1 - 3						
NAME: 1) KERRTANAA A/P R THANAB. 2) JOVITA JANE A/P FRANCIS I 3) MUHAMMAD HAZIQ HAKIM LOQMANUL HAKIM	AKE 2) 10DDT23F1001					
CLASS : DDT4A	DURATION : 16 hours					

CLO	MARKS
CLO 1P	/50
Total marks	/100

#### **CHARITY & FUNDRAISING WEBSITE PROJECT**

#### **INTRODUCTION**

This project is a group-based activity where each team will design and develop a **Charity & Fundraising Website**. The website should be interactive, well-designed, and follow modern web standards (W3C-compliant). In addition, you will deliver an oral presentation on the design and implementation of the website. The project will involve creating a functional Charity & Fundraising Website using HTML and CSS only.

#### **QUESTIONS (CLO1, P4)**

- 1. Construct an Interactive CHARITY & FUNDRAISING WEBSITE using HTML and CSS only. The website MUST include the following features:
  - a. The website MUST contain at least 5 sections:
    - Home (Introduction to the charity and its mission)
    - About Us (History, vision and goals of the organization)
    - Campaigns (Showcase active charity campaigns with details)
    - Get Involved (Options for volunteering, donations and partnerships)
    - Contact Us (Provide ways to reach the organization)
  - b. The Contact Us page MUST contain a form with the following fields:
    - Full Name
    - Email Address
    - Subject
    - Message

- c. The website MUST include:
  - Relevant images representing charity activities
  - Properly structured navigation menus

Appropriate CSS styling for readability and engagement

#### 2. Storyboard Requirement:

- a. Each team is required to create a storyboard for the Charity & Fundraising Website, illustrating the layout and design choices for each page.
- b. The storyboard MUST include:
  - Visual representation of navigation flow
  - Content structure for each section (Home, About Us, Campaigns, Get Involved, Contact Us)
  - Design elements such as images, fonts, and colors

#### **ADDITIONAL NOTES:**

- 1. Plagiarism Warning:
  - You are NOT ALLOWED to use ready-made templates. While you can refer to templates
    for ideas, you are expected to create the code yourself. Copycatting and plagiarism will
    result in an F grade for this project.

#### 2. Duration:

• This project has a duration of 16 hours. Make sure you manage your time effectively to complete both the storyboard and the HTML/CSS development.

#### **ASSESSMENT CRITERIA:**

Your project will be evaluated based on the following criteria:

- Storyboard completeness and accuracy
- HTML structure and organization
- CSS implementation and consistency
- Visual design (fonts, colors, layout)
- Navigation and usability
- Browser compatibility (Google Chrome, Mozilla Firefox)
- Code quality (indentation, comments, structure)

All the Best!

Criteria	4 (5.5.5 H 5.55)	0 (01)	2 (0-1:-f1)	4 (No. 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1	STUDENTS'			'SCORE	
Criteria	4 (Excellent)	3 (Good)	2 (Satisfactory)	1 (Needs Improvement)	S1	S2	S3	S4	
CSS Implementation (Contact Us Page)	Professionally styled form with good spacing, alignment, and responsiveness. Clear input fields and labels.	Well-styled form, but minor alignment or spacing issues.	Basic form with minimal styling, lacks proper spacing or clear labels.	Poorly formatted or no CSS applied, form appears unstructured.					
Navigation Structure	Clear, intuitive and fully functional navigation across all sections.	Navigation is mostly clear, minor issues with functionality.	Navigation is functional but confusing in parts.	Poor navigation, difficult to use or non-functional links.					
Responsiveness & Compatibility	Fully responsive and displays perfectly in Chrome and Firefox.	Responsive with minor display issues in Chrome or Firefox.	Some responsiveness issues, noticeable display problems in either browser.	Major responsiveness issues, significant display problems in multiple browsers.					
Code Quality & Organization	Clean, well-organized code with proper indentation and comments.	Mostly organized code with minor indentation issues. Some comments.	Code is present but lacks organization and proper comments.	Disorganized code, missing comments, improper indentation.					
Use of Media (Images/Video)	Media integrated effectively with appropriate sizes and formats across all pages.	Media is mostly well- integrated but there are some inconsistencies in size or format.	Basic use of media, issues with size or formats.	Poor or no use of media, incorrect formatting.					
Report/ Documentation	Detailed, well-structured report that explains design choices and implementation.	Good report with minor omissions in explaining design and implementation.	Basic report with incomplete explanations.	Poor or no report, lacking details of design and implementation.					
Timely Submission			Submitted on time with all project components completed.	Submitted slightly late with all project components.					
				TOTAL SCORE (/50)					

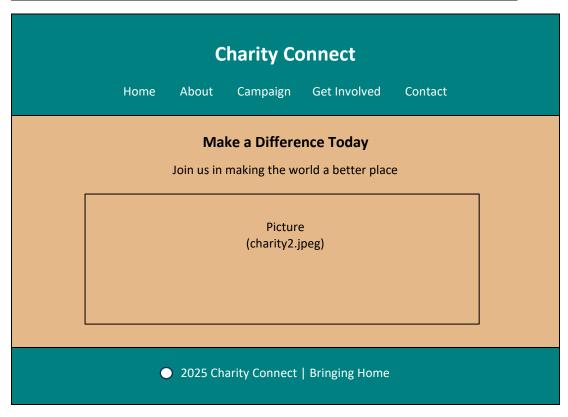

#### Note:

If any required section or task as outlined in the project is missing or incomplete, a score of ZERO will be awarded for that specific section, regardless of the rubrics' criteria. Ensure all sections are fully completed to qualify for grading.

## **About Our Charity**

We are committed to assisting individuals in need by giving necessary resources, assistance, and opportunity to improve their lives. Our objective is to make a positive difference in communities by addressing important social issues like poverty, education, healthcare, and disaster relief. We work via various fundraising activities and partnerships to guarantee that individuals and families have the support they require to live better lives. We believe in the power of group action, and that every gift, volunteer, and act of kindness contributes to positive change. Compassion, honesty, and sustainability are key to our charity's mission. We try to empower individuals by not just giving emergency assistance, but also developing long-term solutions that promote self-sufficiency and development.

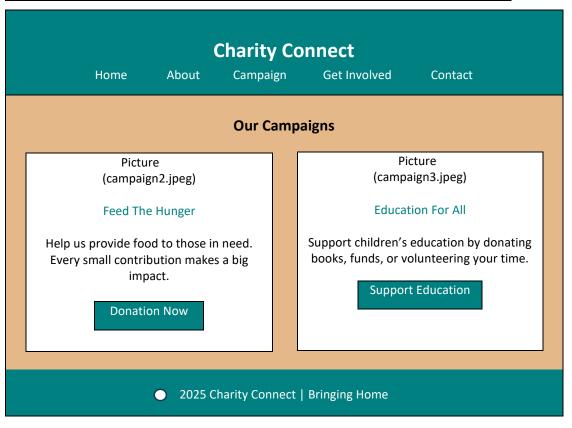

We can change things if we work together. Come along with us as we work to provide opportunity, support, and hope to those in most need.

## **CONCLUSION:**

The Charity & Fundraising Website project was an engaging and valuable learning experience that allowed us to apply our HTML and CSS skills to develop a well-structured and interactive website. The project involved designing and coding a fully functional website with five key sections: Home, About Us, Campaigns, Get Involved, and Contact Us. Each section was carefully structured to provide essential information about the charity's mission, active campaigns, ways to contribute, and a contact form for inquiries.

One of the key challenges faced during the project was ensuring that the website maintained a consistent and responsive design across different screen sizes. To overcome this, we used flexbox and proper CSS styling to create a visually appealing and user-friendly layout. Additionally, integrating the navigation menu across all pages required proper linking and structuring to ensure seamless user experience.

Another challenge was optimizing the form layout on the Contact Us page to ensure proper alignment and usability. We solved this by applying CSS properties such as padding, margin, and width adjustments to improve readability and spacing. Furthermore, selecting the right color scheme, fonts, and images was crucial in enhancing the website's aesthetics while keeping it professional and engaging.

Overall, this project helped us understand the importance of web design principles, semantic HTML structure, and effective CSS styling. By adhering to modern web standards and focusing on usability, we successfully built a website that is visually appealing, easy to navigate, and informative. This experience has enhanced our skills in front-end web development and provided valuable insights into designing websites for social causes.

Through this project, we have gained practical experience in building real-world websites, ensuring accessibility, and improving our problem-solving abilities in web development. We are confident that the skills and knowledge acquired from this project will be beneficial for future web development tasks.
